CONDITIONS OF SALE: TNN Industries Pty. Ltd. shall not be liable for any loss, injury, damage or death whether consequential or otherwise whatsoever or howsoever arising whether through negligence or otherwise in connection with the sale supply use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on TNN Industries skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of TNN Industries has any authority to add or alter these conditions.

APPLICATION:

Apply 8 litres/Tonne of grain just prior to sowing. If using Smuticides or Bunticides, carry out a jar test and if compatible then mix and apply at the same time.

Achieving Excellence in Sustainable & Biological Agriculture

LIQUID

TNN

GOLDEN GRAIN

TYPICAL ACTIVE CONSTITUENTS FOR EACH LITRE:

ZINC (Zn) as a Chelated Zinc - 55g/litre

Molybdenum (Mo) as Ligno-Molybdate - 0.05g/litre

Boron and Copper as Trace Minerals

TNN LIQUID GOLDEN GRAIN can be mixed with seed where it will provide uniform coverage.

TNN LIQUID GOLDEN GRAIN When applied to the seed, will dry quickly and will not cause blockages in seed drilling equipment.

TNN LIQUID GOLDEN GRAIN is UNIQUE in that the nutrients are absorbed directly by the seed rather than simply coating the seed at time of planting, therefore allowing immediate utilisation by the germinating seed.

Batch #: **TNN/00000**
